

Component tools

Descripción

Description

Adds shortcuts to actions related to the component.

Reference

A screenshot of a dark-themed toolbar. On the right side, two buttons are visible: 'Documentation' and 'Remove', both in a light gray font.

- **Documentation** – Shortcut to component documentation.
- **Remove** – Shortcut to delete the component.

Use

```
CGFEditorUtilities.BuildComponentTools(string documentationURL, SerializedObject)
```
